PROFESSIONAL SUMMARY

Aspiring Full Stack Developer with hands-on experience in MERN stack development and a solid academic foundation in Computer Systems Engineering. Skilled in designing responsive web applications and integrating backend services. Strong problem-solving abilities, with internship experience in IT support within corporate environments. Passionate about continuous learning, collaboration, and contributing to innovative development teams in dynamic settings.

WORK EXPERIENCE

Intern – IT Engineer

Sui Southern Gas Company Ltd., Karachi, Pakistan | 07/2024 – 08/2024

- Gained hands-on experience with diverse technologies, expanding technical expertise.
- Supported IT infrastructure upgrades, enhancing system reliability.
- Analysed system performance and identified areas for optimization.
- Contributed to software development projects, improving user experience.

Software Intern – Full Stack Developer

Xclusive Solutions Pvt. Ltd., Karachi, Pakistan | 10/2025 – 02/2026

- Designed and customized financial document templates (Delivery Challan, Invoices, etc.) using Odoo 17 ERP system.
- Worked on backend configuration and template structuring for finance workflows.
- Tested and validated APIs using Postman to ensure smooth data integration.
- Managed and queried databases using PostgreSQL for storing and retrieving financial records.
- Collaborated with team members to improve document automation and reduce manual processing.

EDUCATION

Istanbul Okan University – Istanbul, Turkiye

Master's – Artificial Intelligence with Thesis (English)

2026 – Ongoing

Usman Institute of Technology (Affiliated with NED University) – Karachi, Pakistan

Bachelors in Engineering – Computer Systems Engineering

2021 – 2026

Govt. Delhi Inter Science College – Karachi, Pakistan

Intermediate – Pre-Engineering

2019 – 2021

Karachi Public School – Karachi, Pakistan

Matriculation – Computer Science

2017 – 2019

CERTIFICATIONS

- MERN Stack Development
- Artificial Intelligence
- Python Programming
- Digital Freelancing

PROJECTS

- ✓ **Bug Tracker Dashboard** | 08/2025 – 09/2025
 - Developed login system with demo credentials for Tester, Developer, and Manager roles.
 - Dashboard displays total, open, and resolved bugs.
- ✓ **Smart Inventory System** | 06/2025
 - Allows viewing, adding, and deleting inventory items efficiently.
- ✓ **Team Task Visualizer** | 06/2025 – 07/2025
 - Enables task creation with title, assignee, due date, and priority.
 - Visual workflow: To Do → In Progress → Done.

FINAL YEAR PROJECT (FYP)

Health Vend: Your Fitness Partner | 07/2024 – 06/2025

- Developed an automated vending machine using Arduino Mega 2560 and Python for personalized nutrition.
- Calculates BMI and dispenses suitable food items for weight management.
- Combines embedded hardware with programmable automation to support wellness tools in public spaces.

TECHNICAL SKILLS

- **Programming & Development:** MERN Stack, Python
- **Networking & Systems:** CCN, IT Infrastructure
- **Hardware & Simulation:** Circuit Design & Simulation (Multisim, Logisim, Proteus)
- **Project Management Tools:** Microsoft Project, StarUML
- **Other Skills:** Documentation, Reporting

SOFT SKILLS

- Teamwork & Leadership
- Flexibility & Adaptability
- Research & Analysis
- Presentation & Communication
